The Koala Action Network is holding a koala open day to share information about koalas, primarily about those in the forested coastal ranges in the Murrah and Biamanga landscape, between Bega and Bermagui Rivers.

Information will also be provided about projects being undertaken by the NSW Koala Strategy that are relevant to the conservation of koalas in this region.

A range of speakers will be presenting, after which there will be a panel discussion.

All are welcome! A light lunch will be provided so for catering and seating please RSVP by registering for a free ticket at the link below.
